## **ABOUT PROJECT EDUACCESS**

Access to higher education is a privilege most people from marginalised communities are systematically denied through cost, information, and dispositional barriers.

Launched in 2021, Project EduAccess is a modest attempt to improve inclusivity in higher education institutions and work towards removing these barriers for students from marginalized communities in South Asia.

We hope to achieve this by providing expert mentorship, support, and guidance to learners in South Asia.

In addition to running a mentorship programme and organising workshops, Project EduAccess regularly develops content such as guides and documents that aid potential applicants in their university and scholarship application processes.

## **DISCLAIMER**
